

Are you serving it right ?

You provide the place. You provide food. You provide ambience and still. And yet the customer might find the lighting is too dim or AC too cool. We offer solutions for controlling the restaurant or lounge environment to help curate the best customer experience.

We help you
Serve Better

Our experience, your benefits...

The Essence of Comfort & Luxury

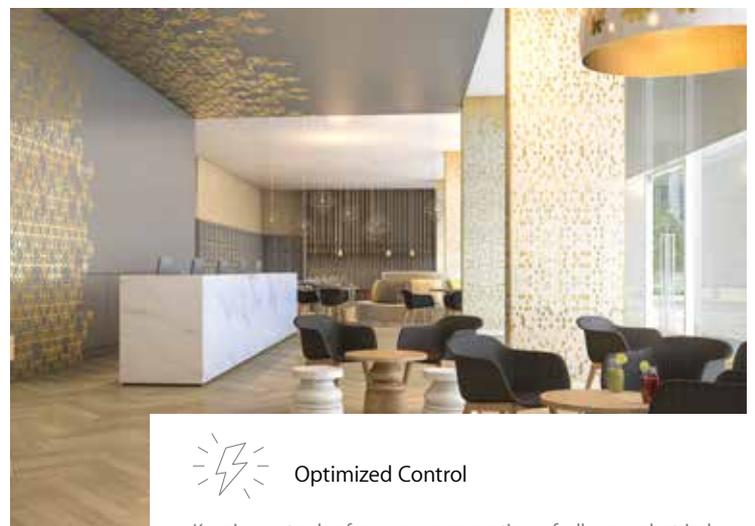

It is designed to control and provide luxury with comfort. Messung eases your lifestyle by giving the control of comfort in your hands. Now maintaining the electrical components of the restaurant has never been easier. Reducing the manual work, it makes the experience hassle-free and reliable.

- Energy Saver • Comfort Provider • Hassle-free • Luxurious
- Elegant • Intelligent • Pro-active Maintenance

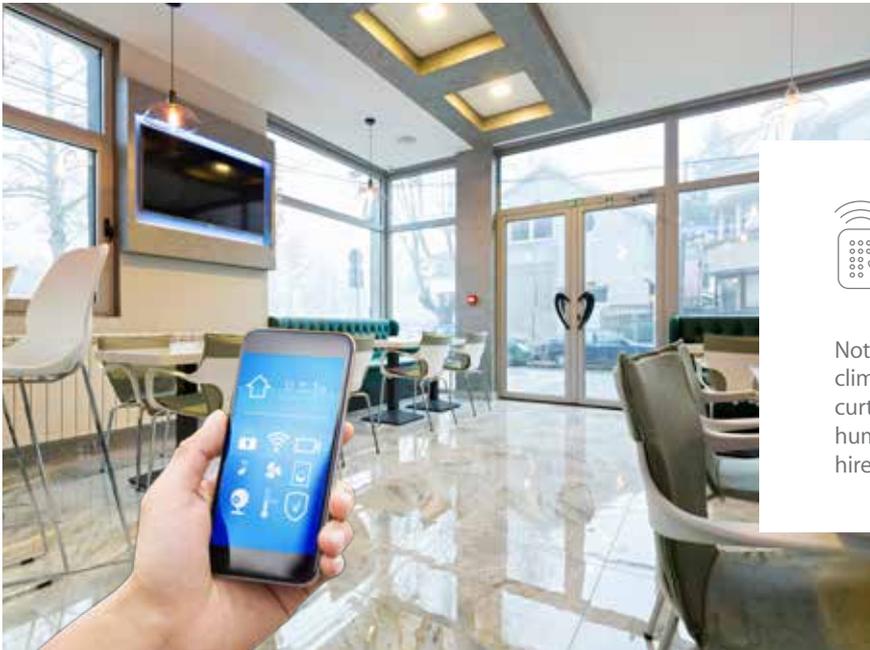

Creating the Perfect Mood. Lighting Redefined.

Automated light control gives you the freedom to control the light according to the brightness of the day or mood. Light it up according to the moods with accented lighting. Messung provides a total light control which includes decorative, task and general lights. Dim the lights during the daytime, highlight what you need. Set the right atmosphere anytime.

Optimized Control

Keeping a track of energy consumption of all your electrical components has never been easier. Messung helps in controlling the energy & reducing the maintenance charges. Motion Detector for Washrooms & Common areas can save a lot of energy and money. Make your place more energy efficient and spend where you should.

Remote Control on Tablets and Phones

Not only the shutters manage the security of the place, climate, music and much more. Adjust the window curtains according to the time of the day without human help. Let your employees do what they are hired to do, serve!

The Importance of Ergonomic Climate Control

No need to check on the fans or AC every time the weather changes let Messung do it for you. Providing automated thermostat control that helps you to take the charge of the climate as it changes.

An Experience for the Senses

Messung provides a customized audio control that sets the mood. Experience comfort like never before. Now, a simple touch can change the audio and light up the mood, it can create a romantic atmosphere or adjust the mood according to the day.

Your Security in your Hands

Choose a smart way to secure your surroundings. Manage the entry and exit access, security, fire alarm and CO2 sensors on phones and tablets. A convenient way of managing the environment can come very handy to secure the place.

The Ambience and Mood of the Restaurant means Everything.

Give luxurious treatment to your customers for better satisfaction. Control the curtains according to the mood. Lift up the curtains during a pleasant day or keep them closed to cool down the atmosphere. Change the atmosphere according to the climatic needs. It also helps you to save energy and automate the need for managing the curtains.

Proactive Maintenance

Pick a smart way of keeping a check on your devices and systems. Get notified when anything goes out of order. Messung offers service which helps you to get a feedback on your system. Get notified when energy consumption exceeds the limit & maintain a proper performance report of your system.
